[Foremost Picks Up Pomona Property](#)

February 5, 2018

Newport Beach, CA-based Foremost Companies acquired a 100,000-square-foot commercial office building in Pomona, CA from private owner DeVry Education Group for an undisclosed amount. The 9.8-acre site located at 901 Corporate Center Dr. was purchased in an all-cash deal, with the potential to add debt in the future.

The two-story, flex office building is part of the 50-acre University Corporate Center business park. Current owners and tenants at the business park include pharmaceutical, professional offices and businesses, educational, and state and county offices. The interior of the building is currently improved with classrooms and administrative offices, ideal for both educational and professional office tenants.

NKF's John Ewart and John Daciolas are handling the leasing.
